

Digital Accessibility Policy

Policy Statement

Grinnell College is committed to providing equitable access to digital information and information technology, including services and **phe** sical and virtual environments in which information technology is used.

Ensuring equal and effective electronic and information technology access is the responsibility of all College administrators, faculty, staff, and Co**llege** sored student organizations. These responsibilities include the

- use of Webpage design standards that provide access for adjuiting those with disabilities:
- use of hardware and software products that prote universal design and access; and
- provision of accessible technogy-related work environments that accommodate all users.

Summary

Grinnell College provides equal opportunity to its educational and administrative services, programs, and activities in accordance with federal and state law. This policy extends to the college's digital and information technologies and applies to their electronic media accessibility

- software, hardware, and systems accessibilitind
- procurement

Purpose

Incorporating principles of universal design in the development, acquisition, and implementation of information technology and related resources helps **thlege** to ensure that these resources (documents, **V/zdg**es, information, services, etc.) are accessible to the widest possible audience.

This policy will help ensure that all individuals have access to information and information technology associated with administration and services, courses of instruction, departmental programs, and Collegeonsored activities.

- Americans with Disabilities Act
- Section 504 of the Rehabilitation Actf 1973
- Section 508 of the Rehabilitation Act Amendments of 1998
- Higher Education Opportunity Act of 2008
- Iowa Civil Rights Act

Guidelines

The Dean of the College (or designee) is responsible for interpreting the Digital Accessibility Policy and providing ecutive authority, with consultation as necessary, over all digital accessibility in the scope of this policy.

The following circumstances may qualify as exemptions from this policy:

- 1. Where compliance is not technically possible or may require extraordinary measures due to the nature or intent of the information resource, applicating service, a request for exemption must be madlack of sufficient funding for any particular department, program, or unit of the college would not be considered available reason for an exemption.
- 2. Where compliance would result in a fundamental alteration of the information resource, application, or service, and not satisfy the original intent.
- 3. Where the product is not currently in compliance, but efforts are underway to fix the defects by a defined date.

An exemption to this policy may be made by submitting an exemption request form to be reviewed by the Dean of the College (or designee) and the Chief Information Officer (or designee). No compliant information technology must not be purchased or developed prior to receiving an exemption approval.
